Professional Summary:

Computer Science graduate with strong foundation in Python, SQL, and backend development. Skilled in building real-world projects using Flask, REST APIs, and database integration. Passionate about problem-solving and writing clean, efficient code. Seeking an entry-level Software Developer role to contribute to scalable and impactful applications.

Skills

- **Programming:** Python (OOPS, File Handling, Exception Handling, Data Structures, Problem Solving)
- **Backend Development:** Flask, REST API Development, JSON Handling
- **Mern Stack:** (MongoDB, Express, React, Node.js)
- **Databases:** MySQL (Joins, Indexing, Queries)
- **Web Development:** HTML, CSS, Bootstrap
- **Tools & Platforms:** Git, GitHub, VS Code
- **Core Concepts:** Data Structures, DBMS, OS basics

PROJECTS: View Complete Project Details at: likith-portfolio-virid.vercel.app/

Multi-model Emotion Detection System [Major] (Natural Language Processing)

This System predicts emotion based on three different input Modalities:

- Facial Expression (Image /WEBCAM)
- Speech Emotion (AUDIO FILE)
- Text Emotion (SENTENCE INPUT) Each model predicts independently, and a Majority Fusion model determines the final emotion

Bruce – Personal Voice Assistant [Minor] (Artificial Intelligence)

- Built voice-based assistant using Python
 - Integrated speech recognition and text-to-speech
 - Automated system commands and web searches
- Tools Used: Python, Speech Recognition, pyttsx3.

Education:

Vignana Bharathi Institute of Technology (VBIT)	2022-2025 - B. Tech in Computer Science & Engineering (CSE)	CGPA:8.0
Anurag College of Engineering	2019-2022 -Diploma in Mechanical Engineering	CGPA: 8.54
ST.Francis Desales High School (SFS)	2018-2019	CGPA :9.7

INTERNSHIP: AWS Cloud Virtual Internship (May 2022 – July 2022)

- Learned cloud deployment and automation concepts
- Worked with EC2, S3, and Lambda services
