Professional Summary:

Computer Science graduate with strong foundation in Python, SQL, and backend development. Skilled in building real-world projects using Flask, REST APIs, and database integration. Passionate about problem-solving and writing clean, efficient code. Seeking an entry-level Software Developer role to contribute to scalable and impactful applications.

Skills

- **Programming**: Python (OOPS, File Handling, Exception Handling, Data Structures, Problem Solving)
- **Backend Development**: Flask, REST API Development, JSON Handling
- **Mern Stack:** (MongoDB, Express, React, Node.js)
- **Databases**: MySQL (Joins, Indexing, Queries)
- **Web Development**: HTML, CSS, Bootstrap
- **Tools & Platforms**: Git, GitHub, VS Code
- **Core Concepts:** Data Structures, DBMS, OS basics

PROJECTS:

Emotion Recognition using BERT [Major] (Natural Language Processing)

- Built NLP-based emotion classifier using BERT model
- Trained on 5,000+ text samples
- Achieved 85% accuracy
- Used Python, Transformers, Pandas

Bruce – Personal Voice Assistant [Minor] (Artificial Intelligence)

- Built voice-based assistant using Python
- Integrated speech recognition and text-to-speech
- Automated system commands and web searches

Tools Used: Python, Speech Recognition, pyttsx3.

Education:

Vignana Bharathi Institute of Technology (VBIT) **2022-2025 - B. Tech in Computer Science & Engineering (CSE)**

CGPA:8.0

Anurag College of Engineering **2019-2022 -Diploma in Mechanical Engineering**

CGPA**:** 8.54

St Francis Desales High School (SFS) **2018-2019** CGPA :9.7

INTERNSHIP: **AWS Cloud Virtual Internship (May 2022 – July 2022)**

- Learned cloud deployment and automation concepts
- Worked with EC2, S3, and Lambda services

Certifications: Python Web Development – ICT Academy (2025) , Zscaler Zero Trust Associate (2024) ,Data Engineering Virtual Internship (2023)
