

MACHIREDDY LIKITH REDDY

MERN Stack Developer | Software Developer | Mobile: +91 6305059446

Email ID: likithmachireddy@gmail.com | Portfolio: likith-portfolio-vidir.vercel.app/ | GitHub: github.com/Likith-08 | LinkedIn: linkedin.com/in/likithmachireddy0803 | Hyderabad, Telangana

Professional Summary:

Computer Science graduate with hands-on experience in Full Stack Web Development using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Skilled in developing responsive web applications, RESTful APIs, and database-driven solutions. Strong foundation in JavaScript, Python, SQL, and software development principles. Experienced in building real-world projects including a Service Marketplace Platform and AI Interview Platform. Seeking an entry-level Software Developer role to contribute to innovative software solutions.

Skills

- **Programming:** JavaScript, Python, SQL, HTML5, CSS3
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Bootstrap, Flask
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Vercel
- **Testing:** Manual Testing, Functional Testing, UI Testing, API Testing (Postman), Bug Reporting, Test Case Preparation, Regression Testing Basics

PROJECTS: View Complete Project Details at: likith-portfolio-vidir.vercel.app/

Service-Hub Marketplace Platform | React.js, Node.js, Express.js, MongoDB |

- Developed a full-stack service marketplace platform connecting customers with service providers.
- Built separate Customer and Provider modules with role-based functionalities.
- Implemented service creation, editing, filtering, category management, and booking features.
- Designed responsive user interfaces using React.js and modern CSS.
- Integrated REST APIs and MongoDB for efficient data management.
- Implemented real-time notifications and service status management.

AI Interview Performance Analytics platform | Python, Flask, Speech Recognition, AI |

- Developed an AI-powered interview preparation platform for technical and HR interview practice.
- Implemented voice interaction and speech recognition for interview simulations.
- Generated interview questions dynamically based on selected technologies.
- Provided automated feedback and performance analysis to improve interview readiness.
- Designed an interactive user-friendly interface for seamless experience.

Education:

Vignana Bharathi Institute of Technology (VBIT)	2022-2025	B. Tech in Computer Science & Engineering (CSE) CGPA: 8.0
Anurag College of Engineering	2019-2022	Diploma in Mechanical Engineering CGPA: 8.54
ST. Francis Desales High School (SFS)	2018-2019	CGPA :9.7

INTERNSHIP: AWS Cloud Virtual Internship (May 2022 – July 2022)

- Learned cloud deployment and automation concepts
- Worked with EC2, S3, and Lambda services .

Certifications: 1. Java Full Stack- Wipro talent next 2. Nextwave Intensive 3.0 – Full Stack Development Program
3. Networking Essentials - Cisco Networking Academy. 4. Machine learning- Infosys Spring Board.
